Reference: October Quarterly Report (7/1/2010 - 9/30/2010)

To Whom It May Concern:

We are in receipt of the letter from the Commission regarding the above referenced report. Please see below for our complete response.

All three of the issues listed on the Request for Additional Information letter sent on 11/26/10 are all related to data entry limitations of the database software used by the campaign. The debt repayments made to Daniels Broiler Bellevue and USPS were paid via credit card. In the database software that we are using a debt repaid by credit card must be entered as an operating expenditure to the credit card company and a linked memo entry to the vendor that was paid. We must then enter a 3rd party debt repayment memo to the vendor and link it to the operating expenditure and the original memo. The operating expenditure and memo entry are reflected on Schedule B, Line 17 of the Form 3 report, but the 3rd party debt repayment does not. On Schedule D, this method of data entry reduces the ending balance of debt owed to the vendor, but does not show an amount for payment incurred during the period. We have been told by our software vendor that this is a limitation of the database program we use and is not something that can be corrected on their end.

Thank you for the opportunity to respond. Please contact us if you need any additional information.

Sincerely,

Friends of Dave Reichert
